

Silky Oaks® Contour Wrap

A slimmer figure made easy!

Silky Oaks® Contour Wrap

Feel the difference

The Silky Oaks® Contour Wrap originates from a therapeutic treatment. Originally used as a natural remedy for liver and kidney patients, the Contour Wrap is increasingly popular in beauty and wellness centres because of its slimming effect. The Contour Wrap exfoliates and cleanses the skin, detoxifies the body, tightens loose tissue, reduces the appearance of scars, stretch marks and cellulite, and guarantees an excellent and lasting centimetre-loss.

Toning and contouring

It is not unusual for a client to go down a dress size over a course of treatments. But the treatment is not just for people who are overweight. Anyone who wants to tone, tighten and detoxify their body can benefit from the treatment. The bandage technique makes it possible to customise the contouring effect, enhancing the results on problem areas such as thighs, buttocks, tummy and breasts.

Measure the difference

The Silky Oaks® Contour Wrap comes with a double guarantee:

- a client will lose at least 15 cm over the body measurements with the first Contour Wrap treatment, otherwise the treatment is free of charge.
- unless there is a weight gain there should be a centimetre loss of at least 15cm one month after the first treatment, otherwise the client will be wrapped again free of charge.

The Silky Oaks® Contour Wrap is not a weight loss treatment but gives excellent results when combined with a diet and fitness programme.

A revitalising treatment

The elastic bandages, soaked in the warm sea clay solution, are used to wrap the whole body. The toxins, accumulated in the skin and the fatty tissue, are drawn out by the clay which acts like a giant poultice.

The wrap is a very comfortable, relaxing experience and after an hour, the bandages are removed. A shower

is not necessary as the clay leaves your skin feeling soft and smooth. The clay remaining in the pores will in fact continue to work, enhancing the result in the days after the treatment.

The Contour Wrap leaves the body revitalised and detoxified, giving a wonderful sensation of well-being. The complete treatment takes less than two hours.

Our advice for a slimmer and healthier body

We recommend a course of three treatments for all clients. Whether you need more treatments will depend on the centimetre-loss that you require, whether or not you combine the treatment with a diet, how loose the skin is and how stubborn the existing cellulite is.

The firming, slimming effect of the treatment is extremely popular, and it is not unusual for a client to lose

The Silky Oaks® Contour Wrap

- targets the areas of stubborn fat where weight loss is often difficult
 - is a great start for a diet
- tightens and firms the skin after pregnancy or weight loss
- is an ideal preparation for vacation or a special occasion
- is for anyone who wants to look good – fast!!!

a dress size after a course of treatments.

Nonetheless, the health and detoxifying aspects of the treatment remain very important.

A remarkable phenomenon:
In the weeks after the Contour Wrap, both Heidi and I manage to lose five kilos. A telephone call to Wendy confirms the suspicion that the wrap is somehow responsible. “The Contour Wrap is the ideal step towards weight loss. You do not lose any kilos from the treatment itself, but with fewer toxins in your body it does become easier to lose weight.” A very attractive side effect. Another nice detail is the jeans which feel just that little bit looser and our chins which felt much tighter. We both thought “we will be coming back here”. We who were going to prove that it was all a fraud. Sorry Wendy.
(An Bogaerts, Wellness)

Good for:

- detoxification of the body
- stimulation of the lymphatic system
- tighter, firmer skin
- visible slimming

The result: I enjoyed the three contour wrap treatments. The bandages are wonderfully warm and the treatment is totally relaxing. I saw a result after just one treatment and I got a compliment here and there from friends. After three treatments I had lost a total of 58 centimetres. And my belt closes a notch tighter!
(Katrien Huysentruyt, Flair)

Exceptional judgements concerning the Silky Oaks® Contour Wrap

Exceptional judgements concerning the Silky Oaks® Contour Wrap™

We have tested this treatment and yes, it works!
(Michèle Bevoort, Cosmopolitan)

What did I see? A significantly firmer body contour. I had lost 50 cm after 3 sessions, even though my weight increased during this period by 400g. The absolute proof that the treatment does not involve a loss of fluid.

(Ann Meyer, Feeling)

The result is particularly spectacular in the knee-stomach zone. I lost thirty, clearly visible centimetres (yippee!). In addition, my cellulitis has been reduced significantly and I feel as light as a feather!
(Els De Ridder, Flair)

Unbelievable, I have just lost 28 centimetres from my body measurements! I also feel genuinely great! As if my body is happy to have eliminated all its toxins.

(Tine De Jonghe ,Nathalie Vandecasteele, Bruid & Bruidegom)
